

IN APPRECIATION

Providing access

Editor:

Hospice Compassus would like to convey our sincerest appreciation and gratitude to Matt Hanrahan of Baron Pest Solutions and Mark Whitlock of Tri-Gem Construction. Due to their kindness and desire to assist people in need of help within our community we have a patient who now has wheelchair accessibility in and out of her home.

They supplied all of the materials and labor to construct and install a wheelchair ramp. It is such a refreshing thought to know that there are people living and working within our community who will take the time to show such acts of kindness.

From our entire staff, thank you once again to Baron Pest Solutions and Tri-Gem Construction for your generosity.

Michelle Spencer
